

## Low Noise Cargo Containerised Generator Set Air Water Cooling System

Our Product Introduction

For more products please visit us on [diesels-generators.com](http://diesels-generators.com)

### Basic Information

- Place of Origin: China
- Brand Name: Minlong
- Certification: ISO9001
- Minimum Order Quantity: 1
- Price: Negotiation
- Packaging Details: Wood case
- Delivery Time: 10-15 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 1000 pieces per week

### Product Specification

- Frequency: 50/60Hz
- Fuel Consumption: Low
- Power Output: 10-1000kW
- Noise Level: Low
- Fuel Type: Diesel
- Emission Standard: EU Stage II/EPA Tier 2
- Cooling System: Air/Water
- Protection System: Overload/Low Oil Pressure
- Highlight: **Cargo Containerised Generator Set,  
Low Noise Containerised Generator Set,  
Water Cooling Containerised Generator Set**

## Product Description

### Product Description:

Our Container-Mounted Diesel Generator is designed to provide reliable and efficient power generation with extremely low noise level and fuel consumption. This generator has a container structure, providing great convenience for transportation and installation. It meets EU Stage II and EPA Tier 2 emission standards, ensuring clean and safe power output. This generator can be operated in both manual and automatic modes, giving you the flexibility to find the optimal power solution for your needs.

Our Container-Housed Diesel Generator is designed to provide reliable power generation with maximum efficiency and minimal noise emission. It is housed in a container for easy transportation and installation, and it meets EU Stage II and EPA Tier 2 emission standards. This generator has low fuel consumption, so you can enjoy the peace of mind that comes with knowing that you are getting maximum value for your money. Moreover, it has an automatic or manual operation mode, giving you the freedom to choose the best way to generate power.

Our Container-Based Diesel Generator is designed for optimal performance and low noise in a compact and lightweight package. This generator has a container structure that is easy to transport and install, and it meets EU Stage II and EPA Tier 2 emission standards. It has low fuel consumption and can be operated in either automatic or manual mode, giving you the flexibility to find the best power solution for your needs. With its low noise level, this generator will provide reliable and efficient power generation without disturbing your environment.

### Features:

Product Name: **Container Diesel Generator**

Warranty: **1-2 Years**

Operation Mode: **Automatic/Manual**

Protection System: **Overload/Low Oil Pressure**

Power Output: **10-1000kW**

Control Panel: **Digital/Analog**

### Technical Parameters:

Parameter	Details
Noise Level	Low
Fuel Consumption	Low
Power Output	10-1000kW
Emission Standard	EU Stage II/EPA Tier 2
Cooling System	Air/Water
Control Panel	Digital/Analog
Starting System	Electric/Manual
Operation Mode	Automatic/Manual
Structure	Container-Housed Diesel Generator, Container Diesel Generator Set
Warranty	1-2 Years

### Applications:

**Container-Based Diesel Generator** is a brand name of Minlong, a Chinese manufacturer with ISO9001 certification. Its minimum order quantity is 1 and the price is negotiable. It comes with a wood case package and the delivery time is 10-15 days. Payment terms are L/C, D/A, D/P, T/T, Western Union, MoneyGram. The supply ability is 1000 pieces per week. The power output range is from 10-1000kW and the frequency is 50/60Hz. It is equipped with a digital/analog control panel and the fuel type is diesel. The starting system is either electric or manual.

The **Container-Mounted Diesel Generator** offers an effective and efficient power solution for applications that require an external power supply. It is designed to fit into a standard 20-foot or 40-foot shipping container, making it extremely portable and very easy to transport. The generator has a robust design and is highly reliable, making it ideal for use in remote or off-grid locations. It is also very low maintenance and its fuel efficiency makes it cost-effective to operate.

The **Container Diesel Generator** is the perfect solution for applications that require a reliable and powerful source of energy. It offers a

reliable, efficient, and cost-effective solution for a wide range of applications. It is also easy to install and maintain, and its fuel efficiency and portability make it an ideal choice for both indoor and outdoor applications.

## Customization:

Cargo-Container Diesel Generator

Brand Name: Minlong

Place of Origin: China

Certification: ISO9001

Minimum Order Quantity: 1

Price: Negotiation

Packaging Details: Wood case

Delivery Time: 10-15 days

Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

Supply Ability: 1000 pieces per week

Operation Mode: Automatic/Manual

Warranty: 1-2 Years

Frequency: 50/60Hz

Control Panel: Digital/Analog

Noise Level: Low

## Support and Services:

Technical Support and Service for Container Diesel Generator

We provide technical support and services for our Container Diesel Generator to ensure that our customers get the best out of their products. Our technicians have the expertise and experience to help you with any questions or issues you might have.

If you need assistance with your generator, our technicians are available to answer any questions you may have. We can also help you find the right parts and components to keep your generator running at its peak performance.

We also provide regular maintenance and servicing of your generator, to ensure it is running properly and safely. Our technicians can also help you with any repairs or upgrades you may need.

Our customer service team is available for any additional questions or concerns you may have. We are dedicated to providing the best service and support for our customers.

## Packing and Shipping:

Container Diesel Generators are packaged and shipped in standard shipping containers. The containers are designed to provide protection from the elements and provide a secure platform for transporting the generators to their destination. The containers are fitted with foam padding to protect the generator and other components during transit. The containers are also equipped with safety locks to ensure that the items are secure during transport.

The generator is also secured to the container with straps or chains to ensure it doesn't shift during transit. The containers are also equipped with tracking devices to ensure that the generator can be tracked at all times and to ensure its safe arrival at its destination.
